CRIME VICTIM ADVOCATE PROGRAM

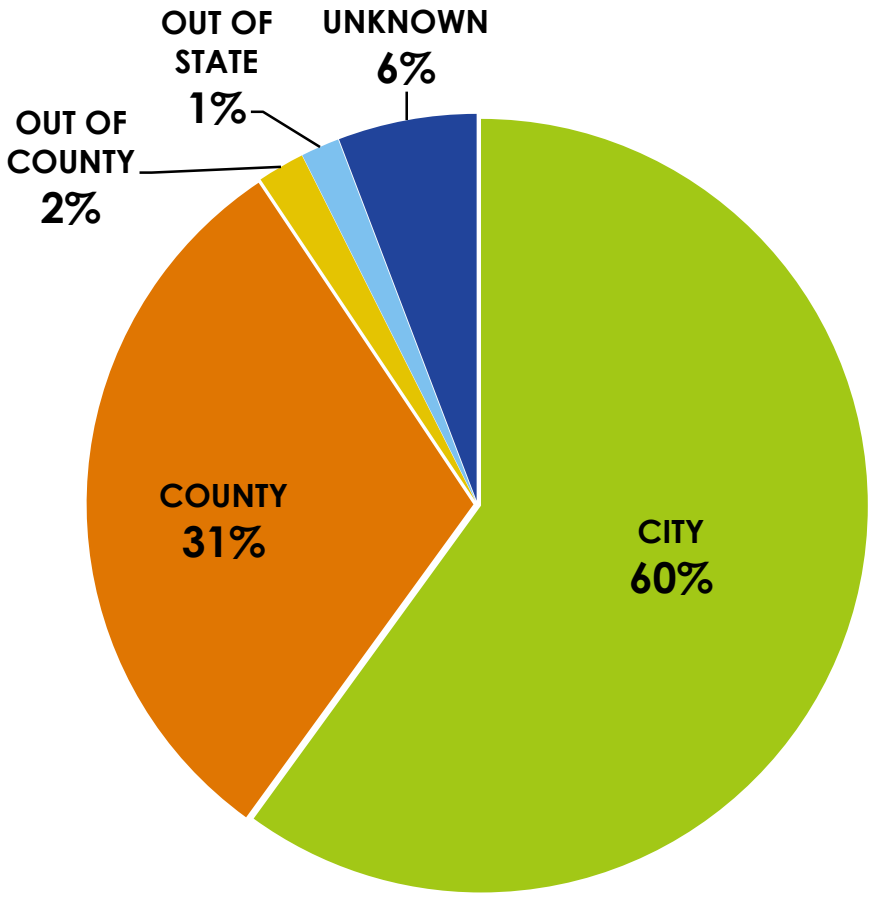

Over the past 13 years, the CVA program has seen an 80% increase in primary and secondary victims seeking services.

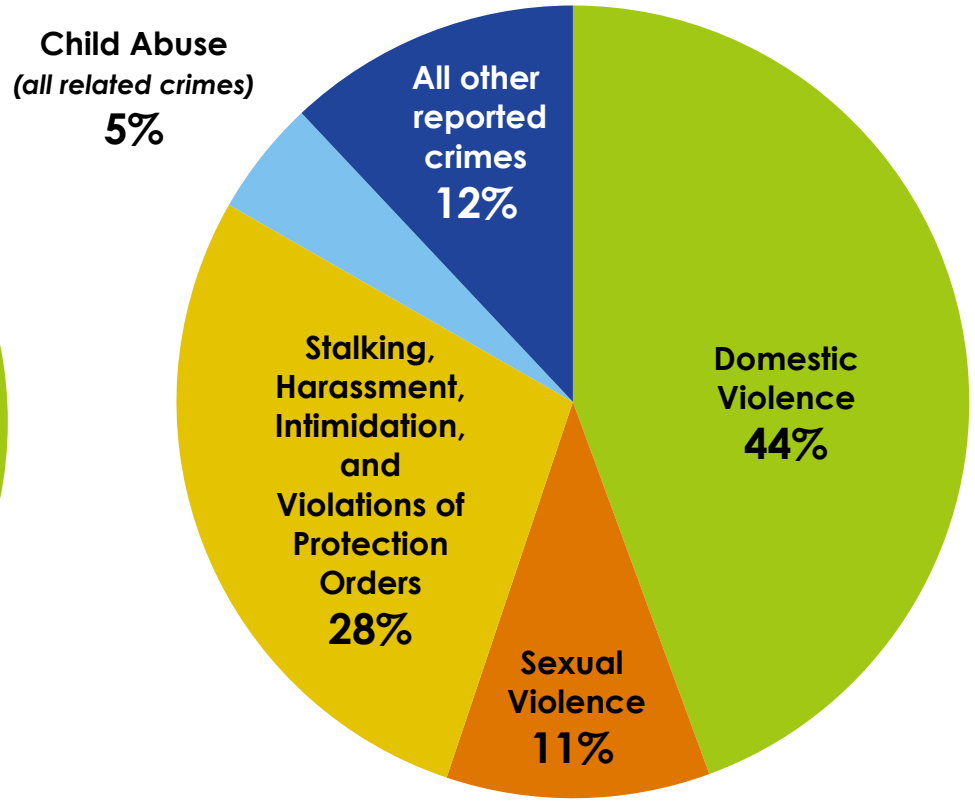

**FY 2012 was an anomaly in number of victims counted due to internal staff changes and process with full conversions between two state managed data systems. Prior to FY2012 source data was the PDQ system. Source 2012 forward: Montana Board of Crime Control – Victim's Data Base [AVID], Initial Victim Services*
